

Use this spin-wheel to see how spiritual qualities look through the "lens" of each of God's synonyms.

As God's reflection, we express Him through spiritual qualities. Assemble your own spin-wheel by following the directions on page 10. Then turn the wheel to make the spiritual qualities match up with each synonym for God, and think how each quality looks through the "lens" of each synonym. Ask yourself questions like:

"How is *fearlessness* a quality of Mind and Love?"
 "How is *health* a quality of Life and Truth?"

Can you see how every quality on the spin-wheel matches up with one or more synonyms?
